## Report of School Board

The School Board herewith submits the following report for the past year.

We are proud to say that our schools to-day are in better condition than they have been for many years, and we especially invite your attention to the high standard of excellence attained.

We have endeavored, and we think with a marked degree of success, to secure able teachers, and we think our present teaching force and the acceptable manner in which they have done their work, amply repays us for our efforts, and much credit is due our teachers for their effective work, and the progress made in their respective schools.

During the past year we have run practically five schools, the Powder Mills being consolidated with the Plains, the Caverly being closed before the end of the fall term for want of scholars, all having moved from the district except one, the Ridge and South consolidated for fall and winter terms. By reason of this, and your generous appropriation, we have quite a balance in the treasury. Of course this condition may not continue, as we may be obliged to run six or even seven schools later on, and we would suggest that the appropriation be made sufficient for these emergencies in order that we may maintain our schools on an average of thirty weeks each year, thus entitling us to our share of state aid in December as provided by Chapter 158, Section 1, Laws of 1909.

By reference to the register we are sorry to note that a few pupils have not been as regular in attendance as they should have, and we sincerely hope that parents will remedy

this in the future, for none can afford to neglect school opportunities, and the scholar who is not a regular attendant cannot compete with those who are.

Again the average attendance is a factor in the apportionment by the state, and we should aim to qualify for the largest amount possible to add to our school fund.

We have made a change in arithmetics this year, which we think is an advantage to our schools, and we suggest an appropriation for the coming year which will allow of a change in grammar and possibly in geographies, as both are very unsatisfactory, and certainly without good tools to work with we cannot look for the best results.

We have made some needed repairs on Corner and Plains school buildings, and there are still others which need attention, and to accomplish this an appropriation will be necessary. The Cavelry, Powder Mills, Ridge and South buildings are not in first-class condition, and we act your pleasure in regard to these.

We wish that parents and citizens generally would visit our schools often, and know by personal inspection what is being done. Whatever success is attained in school work and management is due to your hearty co-operation and support, without which the efforts of teachers and school board are of little avail.

We give below a synopsis of our school revenue and expenditures for the past year, with suggestions for the year following.

Thanking you for your generous support in the past, and assuring you of a continuance of our best efforts in the future, we respectfully submit the foregoing.

ZANELLO D BERRY	} School Board
MRS. SARAH E COBURN	
MRS. EDITH A LAMBERTSON	

## Revenue.

---

For Fiscal Year Ending, February 15, 1911

Balance from last year . . . . .	\$ 294 63
